

Research Study Paper and Poster Presentation Information

AWHONN 2015 Convention “Inspire Nurses to Navigate New Horizons”

Research study paper and poster presentations are **original** and pertain to **completed** research related to women’s health, obstetric and/or neonatal practice, education or administration. **All researchers must have completed the data analysis stage before submission of the abstract, with research outcomes clearly described.**

Researchers can indicate a preference to present orally in a paper session, or as a poster. Only those with speaking experience should select “paper”. All applicants interested in presenting orally are encouraged to indicate a willingness to display a poster if not selected for oral presentation. There are a limited number of slots available for oral presentation, and our poster room is extremely well attended. Arguably more attendees are exposed to your work there than in an oral presentation which competes with other sessions.

Criteria for Selection

- Research study complements the convention goal and objectives
- Relevant problem statement/purpose/question or hypothesis, clearly and succinctly written
- Literature and conceptual framework (if indicated based on the type of research) provide the background and support the significance of the study
- Methodology:
 - Design and procedure appropriate based on the research question or purpose
 - Sample/subjects adequate
 - Measurement/data gathering strategies clearly described and defined
 - Data analysis appropriate based on the study design, data obtained and the study problem statement/purpose/question or hypothesis
 - Discussion/interpretation/evaluation of results is appropriate
- Application/implications for women’s health, obstetric or neonatal nursing practice, education or future research
- Internal Review Board (IRB) approval or exemption obtained
- Content free of commercial bias

Goal and Objectives

The goal of the 2015 AWHONN Annual Convention is to inspire nurses to navigate new horizons.

At the conclusion of the convention learners will be able to:

1. Implement evidence-based solutions that lead to nursing excellence
2. Transform quality of care by enhancing collaboration and partnerships
3. Integrate innovations into nursing practice

Submission Process

To expedite the submission process, gather required components before entering the Speaker Management System. You will be asked to provide the following:

- **Title:** Should spark interest, yet still clearly reflect the content. The title should be a concise statement of the main topic. Sample titles: *An Animal Assisted Therapy Intervention for High Risk Antepartum Women; Changing Nursing Practice to Incorporate Evidence- Based Practice for Skin-to-Skin Care*

- **Submitter's Email:** If there is more than one submitter, list the email address of the primary contact.
- **Presentation Format:** You will be asked to indicate your preference to present a 30 minute oral paper presentation or a poster. Only those with speaking experience should select paper. If you select paper, you are required to list three recent speaking engagements of presenting authors, including the audience size and composition. You will also be asked if you are willing to present as a poster if your abstract is not selected as a paper.
- **Brief Description:** This is 2-3 sentences, no more than 75 words, intended for posting on the convention website or other program materials to let attendees know what the session is about. You want them to attend your session, this should stimulate interest. Sample description:
 - *Research has supported the benefits of animal assisted therapy (AAT) in a variety of populations. The literature suggests that the high risk antepartum population is at an increased risk for boredom and anxiety. This poster explores the effects of AAT on boredom and anxiety in pregnant women in the hospital who are at high risk for early labor.*
- **Three Behavioral Objectives.** This is what the learner should be able to do on completing your session. Sample objectives:
 - *Differentiate contraceptive patterns among women who have not experienced violence and women with a history of interpersonal violence (IPV).*
 - *Identify three methods of contraception that increase the woman's control of use.*
 - *Summarize strategies to implement screening for IPV as part of contraceptive counseling.*
- **Teaching Delivery Methods:** You will be asked to select from a list of delivery methods; the methods you choose should be appropriate for the content and objectives.
- **Pharmacology Content:** You will be asked to estimate how many minutes you will spend discussing medications during your presentation.
- **Bibliography:** Reviewers want to see the scientific or academic basis for your presentation. You will be asked to provide at least 5 references, preferably from peer reviewed journals. **At least 3 of them must be current as of the last 5 years.** APA format recommended: <http://www.apastyle.org/> . The bibliography should not be included in the text of the abstract (see abstract instructions below). A sample bibliography follows:
 - Furdon, S., & Benjamin, K. (2010). Physical assessment. In M. T. Verklan & M. Walden (Eds.), *Core curriculum for neonatal intensive care nursing* (4th ed., pp.417-423). St. Louis, MO: Saunders Elsevier.
 - American Diabetes Association (2013). Standards of medical care in diabetes – 2013. *Diabetes Care*, 36, S1, S11–S66.
 - Cooper, B. M., Holditch-Davis, D., Verklan, M. T., Fraser-Askin, D., Lamp, J., Santa-Donato, A.,...Bingham, D. (2012). Newborn clinical outcomes of the AWHONN late preterm infant research-based practice project, *Journal of Obstetric and Neonatal Nursing*, 41, 774–785.
 - Schreiber, C. A., Whittington, S., Cen, L., & Maslankowski, L. (2011). Good intentions: Risk factors for pregnancy in the U.S. cohort of a microbicide trial. *Contraception*, 83(1), 74-81. doi: 10.1016/j.contraception.2010.06.012

- **Content Outline:** You must indicate how many minutes you will spend on each component of the outline. Make sure that the time allotted for each component totals 30 minutes. If you have specified that you will discuss medications, please detail in your outline. Sample outline:

I. History of the historic low-carbohydrate diet in GDM pregnancies (10 min)

A. Rationale for carbohydrate restriction in gestational diabetes

B. Data supporting lower carbohydrate diets

C. Data supporting higher carbohydrate diets

II. Physiology behind effects of maternal dietary carbohydrate and fat consumption on fetal growth and development (5 min)

A. Hypothesis of Pederson

B. Fetal Origins of Atherosclerosis

III. Review of comparative data within women with gestational diabetes who consumed a low-carbohydrate/higher fat diet and a high-complex carbohydrate/lower fat diet (10 min)

A. Patterns of glycemia via continuous glucose monitoring

B. Patterns of postprandial lipemia

IV. Summary/Discussion/Conclusions (5 min)

- **Disciplines:** You will be asked to check off the focus area or areas covered in your presentation.
- **Author Information:** You will be asked to provide contact information, credentials and affiliations for all authors. In addition you must include a short biosketch (limited to 200 words). If the submission is accepted for oral presentation, the biosketches of presenting authors will be read aloud to attendees. The focus of the biosketch should be what makes you qualified to present the topic.
- **CV/Resume** All presenting authors must upload a current CV or resume.
- **CNE Disclosure:** All authors must disclose any relevant personal, professional or financial relationships with a commercial interest producing, marketing or selling health care goods or services consumed by or used on patients within the last 12 months. All real or potential conflicts of interest will be evaluated and resolved to ensure the presentation is free of commercial bias. Learners will be informed as to the presence or absence of conflicts of interest prior to the start of your session as a slide for oral presentations and signage for posters.
- **Abstract Text:** You will be asked to submit a narrative summary of your talk, limited to 400 words. If your submission is accepted, this abstract will be included in a conference proceedings supplement to the *Journal of Obstetric, Gynecologic & Neonatal Nursing (JOGNN)*, and will be edited prior to publication. The abstract is used by reviewers to assess your approach to the

topic, your grasp of the current state of practice and science, and the level of sophistication of the presentation. You can create the abstract in Word first and then cut and paste into the Speaker Management System. Your research abstract must be structured to include the following elements:

- Objective (Problem statement or research hypothesis)Design
- Setting
- Patients/Participants
- Methods
- Results (Data analysis)
- Conclusion/Implications for nursing practice
- Keywords (3-6 key terms that can be used to index your abstract)

Your abstract should not include a reference list, in text citations, tables, or bulleted lists. If you include these elements, they will be removed prior to publication. When acronyms and abbreviations are used, write it out on first use followed by the acronym in parenthesis; use the acronym only thereafter.

Tips and Timeline

You do not have to complete the submission in one sitting. You can click “save and continue” at the end of a page and return using your log-in number. If you have not completed the entire page, you can simply fill in a place holder such as “to be determined” and come back to that field at another time.

All submissions must be completed no later than 11:59pm (Eastern time) on September 10, 2014; you will be notified of the Committee’s decision by November 2014.

If Your Submission Is Selected for Presentation

All accepted submissions will appear in an online convention proceedings supplement. Each paper session will be limited to **30 minutes**, which should include time at the end for questions and answers. A **maximum of two people** can present a paper.

Posters are put on display for attendees’ viewing from Sunday evening, June 15, 2014 through Tuesday late afternoon, June 17, 2014. Presenters are required to be at their posters and available for questions during specified times. Selected poster presenters will be provided with a chair and a 4ft. high X 8ft. wide corkboard. Posters should be no larger than 46 ½ inches high and 93 ¾ inches wide. Electrical outlets will not be available. A **maximum of two people** may present a poster.

Presenters will be responsible for their own travel and all expenses related to their presentation.

All presenters are required to register to attend the convention and will be eligible for a \$75 discount off full convention registration fees.

Questions or Concerns

If you should have any questions or concerns, please contact Carolyn Schick, Manager of Education Programs, by phone at 202-261-1462 or by email at cschick@awhonn.org.
